Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

VT AJ Bell Passive Global Growth (the "Fund")
a sub-fund of VT AJ Bell ICVC (the "Company")

Class I – Accumulation Shares (ISIN: GB00BD833W40)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited.

Objectives and Investment Policy

The investment objective of the Fund is to grow the value of the assets in excess of the Consumer Prices Index (after deduction of fees) in the longer term (5 years +) with a focus on having exposure to global equities, including higher risk equities such as emerging markets, small cap and technology with minimal holdings or exposure to defensive assets such as cash, fixed interest securities, money-market funds and collective investment schemes following alternative strategies such as property and commodities. Capital is in fact at risk and there is no guarantee that a positive return will be achieved over a 5 year, or any, period.

The Fund will seek to achieve its objective by investing in other collective investment schemes (especially in the early stages of the Fund's growth) (including those managed or operated by the ACD), equities, bonds and transferable securities. The Fund may also invest in money market instruments, deposits, cash and near cash.

The Fund will invest largely in 'passive' investments or strategies, which are instruments and/or investment strategies that aim to track the performance of various financial indices.

The Fund will not have any particular geographic, industry or economic sector focus and as such weightings in these may vary as required. The Fund may have exposure to emerging markets through its investments in e.g. collective investment schemes, equities or futures.

Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of other assets) are held only for efficient portfolio management purposes.

You can buy and sell shares in the Fund on any business day.

Any income from the Fund will be re-invested to grow the value of your investment.

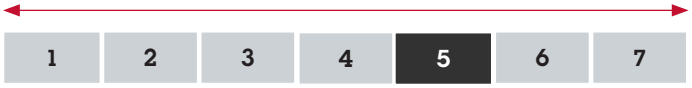

For full investment objectives and policy details please refer to the prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Lower risk
Typically lower rewards

Higher risk
Typically higher rewards

1	2	3	4	**5**	6	7

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 5 because monthly historical performance data indicates that it has experienced relatively high rises and falls in market prices historically.

The following risks are material in addition to the risks captured by the indicator above:

- Counterparty risk: The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- Market Risk: External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- Currency Risk: As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- Liquidity Risk: adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of the assets.
- Risk from use of derivatives: Use of derivatives may result in gains or losses that are greater than the original amount invested.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in `Practical Information` overleaf.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0%
Exit charge	0%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year	
Ongoing charges	0.35%*

Charges taken from the Fund under certain specific conditions	
Performance fee	None

The ongoing charges figure is based on expenses and the net asset value as at 31 August 2019. This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking. The Fund's annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the fund.

For more information about charges, please see sections 3.6 & 7 of the prospectus, which may be obtained free of charge from the address in 'Practical Information' below.

**The Investment Manager of the Fund has undertaken to absorb any costs that would otherwise cause the Fund to have ongoing charges in excess of 0.35%.*
