### WHAT IS THE PRODUCT?

#### Type

This is a closed-ended investment company incorporated in England and Wales and is listed on the London Stock Exchange. The Company has unlimited life and there is no maturity date for the ordinary shares.

#### Objectives

SDCL Energy Efficiency Income Trust Plc (“SEEIT” or the “Company”) seeks to provide investors with an attractive total return for investors comprising stable dividend income, capital preservation and the opportunity for capital growth. SEEIT achieves this through investment in a diversified portfolio of energy efficiency projects with high quality, private and public sector counterparties.

The contracts governing these energy efficiency projects will entitle the Company to receive stable, predictable cash flows in respect of predominantly operational energy efficiency equipment installed at counterparties' premises. The Company's returns will take the form of contractual payments by counterparties in respect of the relevant energy efficiency equipment used by them.

#### Intended retail investor

Typical investors in the Company are expected to be institutional and sophisticated investors, professional investors, high net worth investors and advised individual investors who understand the risks involved in investing in the Company and/or who have received advice from their fund manager, broker, or an independent financial adviser regarding any investment in the Company.

The shares are only suitable for investors: (i) who understand the potential risk of capital loss and that the underlying investments of the Company are highly illiquid; (ii) for whom an investment in the Shares is part of a diversified investment programme; and (iii) who fully understand and are willing to assume the risks involved in such an investment portfolio.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### Risk Indicator

The risk indicator assumes you keep the Product for 5 years. The actual risk can vary significantly if you redeem at an early stage, and you may get back less than the amount invested.

The summary risk indicator is a guide to the level of risk of the Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the market or because we are not able to pay you. We have classified this Product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you. This Product does not include any protection from future market performance, so you could lose some or all of your investment. If we are not able to pay what is owed, you could lose your entire investment.

### Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years		1 year	5 years (Recommended holding period)
Example Investment: 10,000 GBP			
<b>Minimum</b>	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
<b>Stress Scenario</b>	<b>What you might get back after costs</b>	<b>2,630 GBP</b>	<b>2,580 GBP</b>
	Average Return each year	-73.7 %	-23.8 %
<b>Unfavourable Scenario</b>	<b>What you might get back after costs</b>	<b>6,320 GBP</b>	<b>5,890 GBP</b>
	Average Return each year	-36.8 %	-10.0 %
<b>Moderate Scenario</b>	<b>What you might get back after costs</b>	<b>10,610 GBP</b>	<b>14,450 GBP</b>
	Average Return each year	6.1 %	7.6 %
<b>Favourable Scenario</b>	<b>What you might get back after costs</b>	<b>13,750 GBP</b>	<b>16,400 GBP</b>
	Average Return each year	37.5 %	10.4 %

**Unfavourable Scenario:** This type of one-year scenario occurred for an investment between Jan 2023 and Jan 2024, the five-year scenario is based on a shorter period between Apr 2022 and Jul 2024.

**Moderate Scenario:** This type of one-year scenario occurred for an investment between Jan 2018 and Jan 2019, the five-year scenario occurred for an investment between Jun 2017 and Jun 2022.

**Favourable Scenario:** This type of one-year scenario occurred for an investment between Mar 2020 and Mar 2021, the five-year scenario occurred for an investment between Jun 2016 and Jun 2021.

### WHAT HAPPENS IF THE COMPANY IS UNABLE TO PAY OUT?

As a shareholder of the Company, you will not be entitled to compensation from the Financial Services Compensation Scheme or any other compensation scheme in the event that the Company were unable to pay any dividends or other returns it may elect to pay from time to time, or if it were unable to pay amounts due to you on a winding-up. No guarantee scheme applies to an investment in the Company.

## WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return).
- For the other holding periods, we have assumed that the product performs as shown in the moderate scenario.
- 10,000 GBP is invested.

Investment 10,000 GBP	if you cash in after 1 year	if you cash in after 5 years <i>Recommended holding period</i>
<b>Total Costs</b>	<b>147 GBP</b>	<b>1,096 GBP</b>
<b>Annual cost impact (*)</b>	<b>1.5 %</b>	<b>1.6 %</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 9.22% before costs and 7.64% after costs, at the recommended holding period.

### Composition of Costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period; and the meaning of the different costs categories.

This table shows the impact on return per year over 5 years			
One off costs		If you exit after 5 years, the recommended holding period	
<b>Entry costs</b>	We do not charge an entry fee for this product.	0 GBP	0.0 %
<b>Exit cost</b>	We do not charge an exit fee for this product.	0 GBP	0.0 %
Ongoing costs			
<b>Management fees and other administrative or operating costs</b>	1.23% of the value of your investment each year. This is an estimate based on actual costs over the last year.	123 GBP	1.2 %
<b>Transaction costs</b>	0.35% of the value of your investment each year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	35 GBP	0.4 %
Incidental costs taken under specific conditions			
<b>Performance fees and carried interest</b>	There is no performance fee for this product	0 GBP	0.0 %

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

An investment in the Company should be regarded as a long-term investment.
